EDITOR'S NOTE

There's a saying that life happens when you're making plans. Nothing can be truer for this first quarter of 2023!

Losing a key manager and both sales staff within weeks of each other will make the best plans go awry. But thanks to the strong team spirit at Khanyusela College - a pack of wolves we are! - we keep things going until we regain our balance. That's when the magic happens.

Read about our amazing experiences and people we met - and it's only April!

We're so proud of our graduates!

Read about these learners in our headline story on page 4 who are now proud alumni. They went the distance - and the doors have opened because of that.

Hard Work Pays Off

Proud Graduates finish off

By: Tanya Kisten

Excitement was thick in the air last November, when 24 of our National Certificate in Specialist Cleaning Services arrived for their graduation.

"I'm so impressed with the 80% of learners who went the full distance."

Not an easy task, with a tiny stipend and having to sit behind a desk again. But 24 out of 30 of these previously unemployed graduates did it.

"I'm so proud of myself! I can't believe I did it."

80% of learners attended graduation

And while this might be last year's news, what will never get old is that these 24 graduates are now alumni of Khanjisela College.

We wish them well in their journey into their professional lives.

Janet Hansen and Farghana Dollie, our two dedicated and passionate Facilitators for these learners, have guided and mentored them.

Khanjisela College has offered two of these graduates employment from next month.

Beautiful graduation venue

The Services SETA funded projects through the Discretionary Grants have made it possible for these young people to acquire skills which make them more employable, and able to join the workforce.

And along with their skills, we've seen them grow in confidence and experience. With one year's experience and an NQF level 2 qualification from a trusted college in a sought-after field, these graduates are ready to face the world.

Call us for details of these qualified learners. They are ready to clean hotels and BnB's, clinics and hospitals, offices and venues.

Get Screened

Ensure that you are the right fit

Khanyisela College, being a small business, was invited by the Nelson Mandela Bay Business Chamber to showcase some of our entrepreneurial courses at the Working World Exhibition.

The desired results of this initiative include but are not limited to: job creation, economic growth and social harmony.

The expo visitors consisted of 15 000 Grade 11 and 12 pupils, unemployed youth, teachers, fellow exhibitors (corporates and educational institutions) and parents. Everyone was welcomed to our stall!

We showcased our New Venture Creation qualification, an entrepreneurial qualification on NQF level 4.

This qualification is perfect if you want to start your own business. You will be equipped with a variety of business, managerial and personal skills, as well as strategies to help you succeed in the creation and sustenance of your business. Once successfully completed, you should have a sound foundation for the application of these skills and knowledge to explore a diverse

range of entrepreneurial opportunities.

This qualification is a matric equivalent, and will launch you into further management studies at Business Schools to improve your leadership and entrepreneurial skills.

Everyone was welcomed to our stall!

The team and some of the attendees

People who visited our stall took an interest in our exhibition as these were mostly young people who would like to make an impact on the growth of the economy one day.

We would like to extend our gratitude to the Nelson Mandela Bay Business Chamber for affording us this amazing opportunity.

LEARNER'S COLUMN

I enjoyed the course and the way it was presented. Attending it virtually was so convenient for me.

Receiving the Learner Guide prior to the class enables us as learners to gain perspective and engage better in class.

We had a great Facilitator who made everything easy to understand and the facilitation style was engaging. The staff at the College was welcoming and treated everyone with respect.

Keep up the good work!

Facilitation Skills Learner

The learning material is relevant to the course, however; there would be challenges with the slides due to loadshedding. The Facilitator and the College always handled the situation well.

I would recommend Khanyisela College to my fellow colleagues, as the training provided is industry-related and relevant in the times that we are living in.

Thank you for a great, very seasoned and patient facilitator.
